① call ./build.sh
  ↳ calls ./headers.sh
       ↳ calls ./config.sh
            ↳ sets bash vars

① create folder
      sysroot

② iterate over
   SYSTEM_HEADER_PROJECTS
   • ② goto PROJECT dir
     ②·² set DESTDIR=.../.../sysroot
     ②·³ call make install-headers

③ iterate over PROJECTS
   (i) goto PROJECT dir
   (i.2) set DESTDIR= .../.../sysroot
   (i.3) call make install
